

## Single Fender Kit Attachment Installation

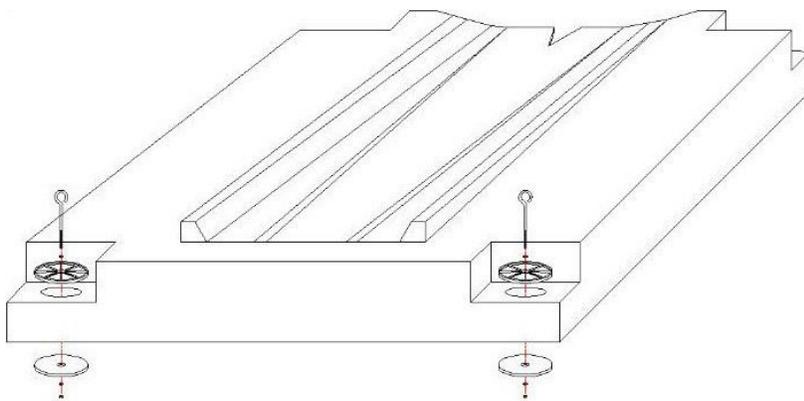

Parts Includes:

Four Polyethylene  
Disks

Four washers & Nuts

One Boat Fender

Place top disk over recess  
hole and run eye bolt  
through top disk hole  
through bottom disk hole.

Then use washers and lock  
nuts to tighten eye bolt &  
disk assembly

Install boat fender to floating dock and tighten rope from disks to eye screw on the floating dock. Frequent rope replacement may be needed from seasonal usage.
